

# PIZZA SALES PROJECT

# ABOUT MYSELF

**Hello everyone**

**My name is KANIKA BHATT.**

**In this project I had utilize SQL queries to solve the questions that were related to PIZZA SALES**

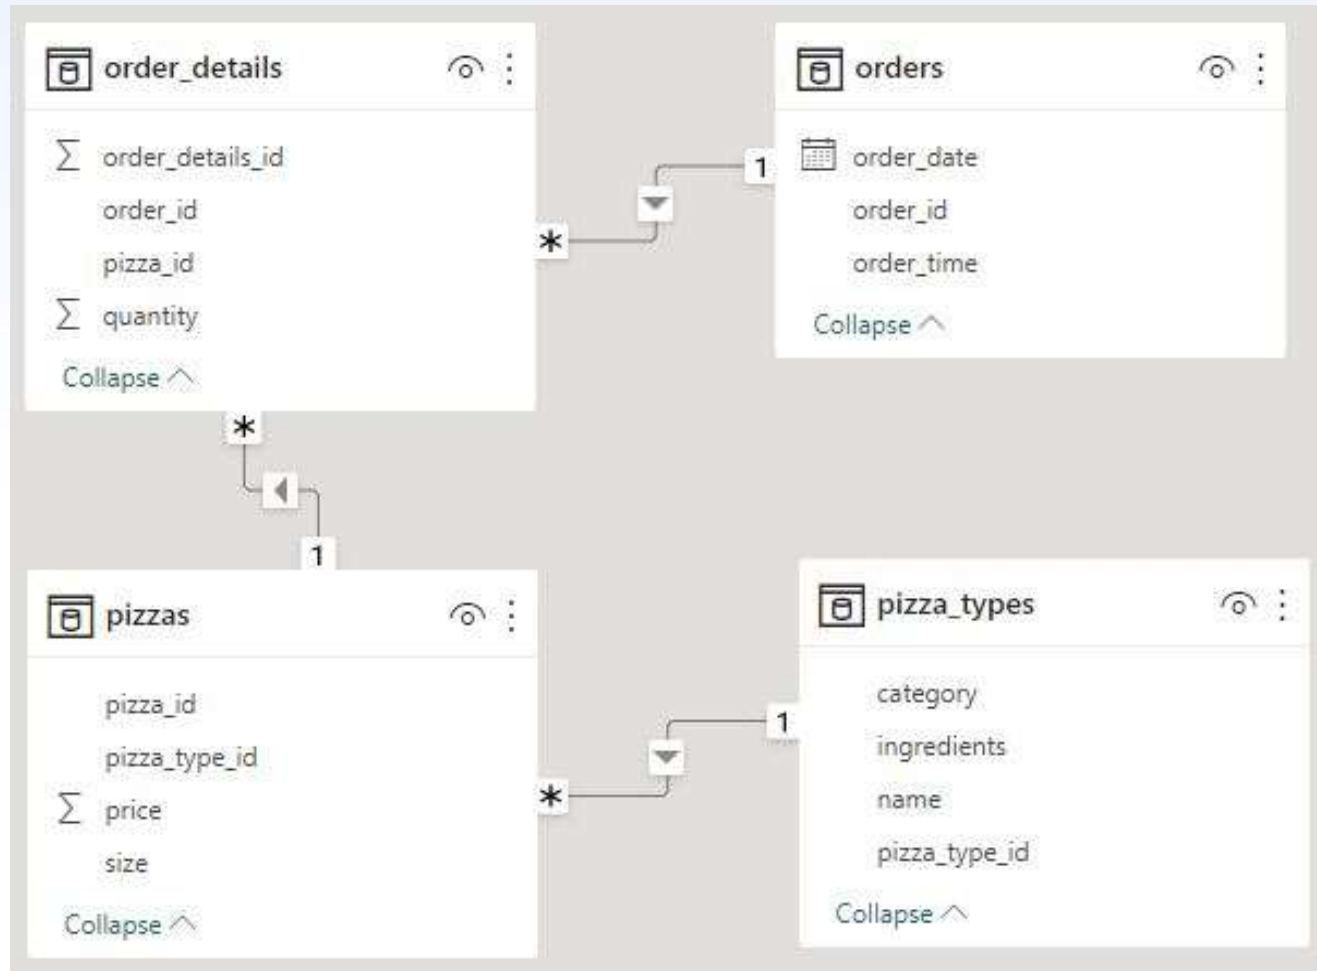

Here in this project I had used MySQL database. MySQL is a widely-used open-source relational database management system (RDBMS) that is renowned for its speed, reliability, and ease of use.

# Schema of PIZZA SALES

Established relationships between tables using primary keys and foreign keys

# Questions

## **Basic:**

- *Retrieve the total number of orders placed.*
- *Calculate the total revenue generated from pizza sales.*
- *Identify the most common pizza size ordered.*
- *List the top 5 most ordered pizza types along with their quantities.*

## **Intermediate:**

- *Join the necessary tables to find the total quantity of each pizza category ordered.*
- *Determine the distribution of orders by hour of the day.*
- *Join relevant tables to find the category-wise distribution of pizzas.*
- *Group the orders by date and calculate the average number of pizzas ordered per day.*
- *Determine the top 3 most ordered pizza types based on revenue.*

## **Advanced:**

- *Calculate the percentage contribution of each pizza type to total revenue.*
- *Analyze the cumulative revenue generated over time.*
- *Determine the top 3 most ordered pizza types based on revenue for each pizza category.*

SQL queries to retrieve  
specific data

## Retrieve the total number of orders placed

```
SELECT  
    COUNT(order_id) AS Total_orders  
FROM  
    orders
```

Result Grid			
	Total_orders		
▶	21350		

## Calculate the total revenue generated from pizza sales

```
SELECT
    ROUND(SUM(pizzas.price * order_details.quantity),2)
        AS Total_revenue
FROM
    order_details
    JOIN
    pizzas ON pizzas.pizza_id = order_details.pizza_id
```

Result Grid		Filter
	Total_revenue	
▶	817860.05	

# Identify the most common pizza size ordered

```
SELECT
    pizzas.size,
    COUNT(order_details.order_details_id) AS Most_ordered
FROM
    pizzas
    JOIN
    order_details ON order_details.pizza_id = pizzas.pizza_id
GROUP BY 1
ORDER BY 2 DESC
LIMIT 1
```

Result Grid			Filter Rows:
	size	Most_ordered	
▶	L	18526	

# List the top 5 most ordered pizza types along with their quantities

```
SELECT
    pizza_types.name,
    SUM(order_details.quantity) AS Total_quantity
FROM
    order_details
    JOIN
    pizzas ON pizzas.pizza_id = order_details.pizza_id
    JOIN
    pizza_types ON pizza_types.pizza_type_id = pizzas.pizza_type_id
GROUP BY 1
ORDER BY 2 DESC
LIMIT 5
```

Result Grid			Filter Rows:	
	name	Total_quantity		
▶	The Classic Deluxe Pizza	2453		
	The Barbecue Chicken Pizza	2432		
	The Hawaiian Pizza	2422		
	The Pepperoni Pizza	2418		
	The Thai Chicken Pizza	2371		

# Join the necessary tables to find the total quantity of each pizza category ordered

```
SELECT
    pizza_types.category,
    SUM(order_details.quantity) AS Total_quantity
FROM
    order_details
    JOIN
    pizzas ON pizzas.pizza_id = order_details.pizza_id
    JOIN
    pizza_types ON pizza_types.pizza_type_id = pizzas.pizza_type_id
GROUP BY 1
ORDER BY 2 DESC
```

Result Grid			Filter Rows:
	category	Total_quantity

By leveraging MySQL's capabilities for data storage, retrieval and management, the pizza sales project aims to streamline operations, enhance customer service, and improve decision-making through detailed analytics

# INSIGHTS

- *The highest percentage contribution to the Total Revenue is made by the Classic Pizza type and the mark obtained is of 26.91%.*
- *The most ordered Pizza based on revenue is THE THAI CHICKEN PIZZA.*
- *After analysing the orders on hourly basis it is concluded that majorly the Pizzas were ordered in afternoon between 12-2 PM and in evening between 5-7 PM*
- *The most commonly ordered Pizza size is Large.*
- *On analysing the Pizza sales I can say that it is highly profitable business as the Total revenue generated is \$817860*
- *High marketing strategies should be adopted for the Classic Pizza type as it as major contributi on to revenue and loved by people.*

THANK  
YOU
